ROBERT LOPER

2022 Frankston ISD Wall of Honor Inductee Robert Loper was a Texas History teacher and head basketball coach at Frankston Schools for 28 years, retiring in 2016 after a career which spanned 41 years and not only earned him the respect of hundreds of basketball players and fans but the honor of being inducted into the Texas Assn. of Basketball Coaches (TABC) Hall of Fame.

His record is impressive, having been chosen district coach of the year for multiple years, East Texas Coach of the Year three times and coach of the TABC All-Star game. While head boys basketball coach at Frankston he recorded 610 wins of his 867 career victories. His teams had 22 playoff appearances, including a memorable appearance in the UIL State Basketball Championship game in which the Indians lost by one point in the final three seconds of the game. One of his teams was Regional Champion, two were Regional finalists, four were Regional Semifinalists, 10 were Regional Quarterfinalists, eight were Area Champions and 13 were Bi-District Champions. His teams won District Championships 15 times.

Coach Loper also coached Cross Country for 15 years, golf for 10 years and also softball and girls basketball. He also served as assistant baseball coach for Sonny Perry, whose baseball team was to be a state finalist. In Cross Country, Coach Loper tutored 14 Regional Qualifiers and two state qualifiers.

ROBERT LOPER

The veteran Frankston coach's advice to his players was "overcome adversity, never give up, remember the losses and rejoice in the victories". He urged his players to "just get better" and they often responded.

As impressive as his record as a coach, his knowledge of Texas History was extensive and he left his students in the classroom with some of that knowledge and many with his enthusiasm for the subject.

Coach Loper not only left his players better equipped to be better adults, but he inspired many of his classroom students with something to remember that will give them lessons of history which may help avoid pitfalls in the future.
